## MANILA LETTER.

From Our Regular Correspondent at the Front.

Impressions of a Kentucky Soldier in the "Expanded" Territory.

Camp Hughes, Manila, P. I. Dec. 31, 1899.—EDITOR KENTUCKIAN:—We had to stay on board of transport for eight days after we arrived at Manila waiting for our camp to be fixed ready for us. All the boys went ashore on the 13th of December except the guards and I. I stayed on board until everything was unloaded helping the commissary Sergt. check off supplies. I went ashore on the 20th of Dec. Our camp is on old Manila side of the river between the wall of the city and the bay. Col. Smith and the Second battalion went to Cavite last week. Manila is not such a sickly place as the papers say it is. The First California regiment has only lost three men from sickness and they have been here six months; all the boys look well. Our Co. "K." has only one man in hospital here while we always had from two to six at San Francisco. We do not have to drill much here, about an hour each day. It is very warm here now, about as warm as it is in Kentucky in July, we are on guard duty every other day. Our regiment has to guard the penitentiary and that takes a company each day. Co. K will be on guard to-morrow. There are about 1,200 in the prison and about 150 of them are Americans. Soldiers who have been tried by Court Martial. Manila is full of Spanish soldiers or prisoners yet. Three ship loads have gone to Spain since we have been here and there are about 1,500 here now. The Spanish uniform here is made of striped cotton goods about like cotton shirting at home. The officer's straps for Capt. three bars, 1st Lieut. two bars, and Second Lieut. one bar. We have a fine camp ground, new tents, each man has a bamboo cot made at prison here. The prison is about three miles from our camp. Everything looks very old in Manila; most of the houses are built of stone and the walls are four or five feet thick and all buildings have large iron bars over the windows, which makes them all look like jails. The churches are all large and look old and rough outside but they are very fine inside. They have street cars and electric light here. The cars are drawn by three ponies hitched up like a spike team. They go at a run all the time. All the horses here are ponies about 3 1/2 feet high and they are very tough. The insurgents have been very quiet for the last week or two. The Spanish women here are beautiful.

I see some very fine chickens here but I don't know that they are any better than those we have in Kentucky. I was appointed artificer of our Co. last week, have to take care of extra guns, also repair guns out of order and issue ammunition to the company. Our rations are good here. There is some talk of sending our regiment to Iloilo on the Island of Panay, about two days run of transport from Manila.

There are two expert miners here, Edward Rebstock, of St. Louis and Fred Cochrane, of Canada. They have just returned from the head waters of Cuba river, 180 miles in the interior of the Luzon Island, where they found gold and staked out claims. Mr. Rebstock says the rivers and creeks are rich and that lots of mineral quartz lodges are to be found in the foot hills near the source of Cuba river. Mr. A. M. Campbell of Co. F, First Tennessee regiment is organizing a miner's Union here. Congress will be petitioned to give discharges here to those who want to remain on the island. The new woman has struck Manila; yesterday she was out horse-back riding. She wears one of those indescribable divided skirts and rode astride; a crowd of rookies rubbered until their eyes watered, and one ventured to smile but the look he got froze him stiff. The private soldier, with his battered hat and rusty leggings is not a thing of beauty, but he is very useful around Manila.

L. H. HUGGLES, Co. K, 1st Tenn. Regt., U. S. V., Manila, P. I.

## MOGUL WAGONS.

We have, during the 25 years we have manufactured them, constantly improved our wagon, made it better every year. Now we are going to make better prices on them also. We are able to do this for we are now making them in greater numbers. The same high quality will be maintained, and we hope our new price will meet your views. Time is the truest test of all things. The Mogul Wagon has been weighed in the balance and tips the beam at 100 cents on the dollar. There are Mogul Wagons in this county that have been in constant use 19 years, and are still hale and hearty. Again there are others of them that have been run eight and ten years that have not cost a dollar's worth of repairs.

Repairs cost higher than anything in the implement line.

If you've got an old rickety wagon that has reached the repair stage, it's cheaper to lay it aside and get a Mogul, and if that should ever break, which is doubtful, the repairs for it are right here.

## THE BAPTIST MEETING.

Closed Friday Night With 21 Additions to the Church.

The series of sermons preached by Dr. Fred D. Hale, of Owensboro, covering a period of ten days, was concluded Friday night. It had been intended to baptize the converts that night, but Dr. Hale announced that the pastor, Dr. Nash, was again sick in bed and unable to administer the ordinance. The concluding sermon was like all of the evangelist's discourses, an able presentation of the truth. Dr. Hale announced that there had been 21 additions to the church, and that 16 were to be baptized at some future time to be announced by the pastor.

Dr. Nash was still ill Sunday and his pulpit was filled by Rev. E. Harrison, of Bethel Female College.

## FULTON WENT WET.

The Antis Carried the Town by 66 Majority.

Saturday was one of the most exciting days ever experienced in the town of Fulton. It was the local option election.

The polls closed at 4 o'clock and the result stood as follows: Against local option, 322; for local option, 256.

The antis won by a majority of 66.

There were several small fights, but nothing of a serious nature.

All the church bells in the town were sounded from the time the polls opened until they closed.
